Much is expected of Bobby Jones, the nineteen-year-old Southern wonder. The remainder of the team can be depended upon to put out considerable low-scoring home talent before they are through. Jess Guilford, the Boston walloper, takes on Cyril Toile, the present English champion, as his first opponent, and it would not be durprising if Guilford eliminated the life holder right at the outset of the party. The draw, always a case of blind linck, has been very fortunate to the visiting Americans. They are assattered through the long list that there will be no serious conflicts until the semi-finals, which will be very sweet for our chances. An attractive card of six races, three of them steeplechases, has been arranged and the sport should be able to hold its own with the more pretentious card at Jamaica.
White the fields named overnight for the different events are large it is doubtful if the scratching panell will play much havoc with the card.
Thirteen of the smartest jumpers in training have been entered for the Great United Hunts Steeplechase Handicap at about two miles which has the place of honor on the programme, but the Between the Flags Chase for hunters at three and a half miles over poats and rails should furnish the thrills.
The other events are the Turf and Field Plate, at six furlongs on the flat, the Hamptons Steeplechase, the Terminal, a mile affair on the flat and a three furlong dash for stable ponies.
